

Determination to make minor amendments to Schedules 1, 1A and 2 of the Threatened Species Conservation Act

The Scientific Committee, established under the Threatened Species Conservation Act, 1995 (*the Act*), has made a determination to amend or omit the description of certain species listed in Schedules 1, 1A and 2 of the Act referred to in paragraphs (a) and (b) below pursuant to section 36A (1) the Act.

a) The Scientific Committee is of the opinion that the following amendments, omissions or insertions of the descriptions of the following species and population are necessary or desirable to reflect changes in the name of a species or a reclassification of a species into further species as a result of taxonomic revision:

The references and websites cited in the Reference list contains the reasons for these amendments, omission or insertions in the Schedules.
