### RECITALS

- a. In February 2013, the NSW Government announced the five-year \$465.7 million *Waste Less Recycle More* initiative in response to the findings of an independent review of the Waste and Environment Levy. The Waste and Environment Levy is legislated under the *Protection of the Environment Operations Act 1997* which requires licensed waste facilities in NSW to pay a contribution for each tonne of waste received for disposal at the facility. The levy is the key policy used to drive waste avoidance and resource recovery by providing an economic incentive to reduce waste disposal and stimulate investment and innovation in resource recovery technologies. The *Waste Less Recycle More* initiative represents the refocussing of waste levy funding to support new and innovative waste and recycling programs that will deliver long-term change.
- b. In 2017, the NSW Government extended the Waste Less, Recycle More initiative until 2020-21. Over nine years, this initiative will allocate \$802 million to stimulate new investment and transform waste and recycling in NSW. It includes grant programs for local government, business, industry and the community, delivered by the NSW Environmental Trust and the NSW Environment Protection Authority.
- c. A major part of the *Waste Less Recycle More* initiative is the *Waste and Recycling Infrastructure Package* which supports the *Remanufacture NSW* contestable grants program.
- d. In 2020, *The Remanufacture NSW Grants Program* was developed by the Australian and NSW governments to support organisations to respond to the Council of Australian Governments (COAG) ban on the export of certain wastes to enable a transition to a circular economy for Waste Export Ban materials. Remanufacture aims to maximise recycling and reuse activities, contributing to meeting the Australian and NSW governments' resource recovery targets and keeping resources within the circular economy.
- e. The Recipient has submitted an application for a grant from the *Remanufacture NSW Grants Program*, which is attached as Attachment A to this Deed.
- f. The NSW Environmental Trust approved a grant from the *Remanufacture NSW Grants Program* to the Recipient to fund all or part of the cost of this application and the Minister for the Environment has certified the expenditure in accordance with Section 8 of the *Environmental Trust Act 1998*.

21.3.2. Nothing in this clause 21 (Dispute Resolution) will prevent either party from seeking urgent interlocutory relief.

## 22. Notices

22.1. How to give notice

22.1.1. A notice, consent or other communication under this Deed is only effective if it is:

- b. in the case of delivery by post – within three (3) Business Days of posting;

## 23. Assignment

23.1. The Recipient must not assign, charge or otherwise deal with the benefit of this Deed, without the prior written consent of the Trust. For the purposes of this Deed, any change of control in the shareholding of the Recipient will be deemed to be an assignment by the Recipient.

## 24. GST

24.1. Notwithstanding any other provision of this Deed, if any Supply by one Party to the other pursuant to this Deed is deemed to be a Taxable Supply for the purposes of the GST Law and that Party is or becomes liable to pay GST in respect of such Supply:

- a. the Grant will, subject to clauses 24.1(b), 24.2, 24.3 and 24.4, be increased (if GST is payable by the Recipient) or decreased (if GST is payable by the Trust) by any such GST liability provided the Supply is deemed to be a Creditable Acquisition so that the party who is the recipient of the Supply is or will be entitled to receive an Input Tax Credit; and
- b. the Party liable for payment of GST must issue to the party who is the recipient of the Supply a tax invoice in respect of such Taxable Supply

**Note**

Previously grants had to be specifically covered by appropriation but now the 'specifically' has been removed. This has the effect as indicated below:

Removal of the 'specifically covered' requirement.

The term 'specifically covered' in subsection 9-15(3)(c) is not included in the new law. This ensures the following:

- a. The government related entity supplier does not need to be specified under the terms of the appropriation (either by name or as part of a class of entities). All that is required is for the terms of the appropriation to state the purpose for which funds are appropriated.
- b. The terms of the appropriation do not need to be restricted to government related entities. This is particularly useful for universities and schools where the terms of the appropriation often includes private entities as eligible for the funding.

All Trust funds used for making grants have been appropriated for the purposes of making such grants by the Environmental Trust, which has an established role in distributing money for environmental purposes.

In accordance with the ATO advice the Trust will not be adding GST to any grant made to a government agency and that government agency will no longer be liable to the ATO for GST for receipt of the grant from the Trust.

Please advise your financial department that all invoices will need to be issued excluding GST.
