NEW ENGLAND AREA STRATEGIC FIRE ADVANTAGE ZONES

NEW ENGLAND AREA ASSET PROTECTION ZONES

Asset Protection Zone Name	Specific Objectives	Strategies
Apply Falls Visitor Area Zone Area - 2.8ha	<ul style="list-style-type: none"> Protection of visitor precinct, infrastructure and any park visitors who may be at this well-used location. 	<ul style="list-style-type: none"> Manual removal of fuel such as raking, slashing, mowing and hand removal around key assets. Clearing area - clear any debris or high fuels from the toilet structure and immediate area. Ensure a fuel free zone exists around constructed fire areas. Day Use Area - clear any debris or high fuels from the toilet structure and immediate area. Orange fire walk - remove excess ground fuels from under wooden lookout decks. Olely Walk - remove excess ground fuels from under wooden lookout decks.
Bark Hut Zone Area - 0.3ha	<ul style="list-style-type: none"> Protection of the hut and yards and any park visitors who may be at this remote location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around structure. Removal of bark and leaf litter from facility roof. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails to the area.
Birds Nest Hut & Yards Zone Area - 0.3ha	<ul style="list-style-type: none"> Protection of the complex involving outbuildings and yards. Protection of the facilities at Birds Nest visitor area and any park visitors and vehicles who may be at this remote location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around structures. Removal of bark and leaf litter from facility roofs. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the camping area. Install fire ban signs to be used in times of high fire danger.
Birds Nest Zone Area - 1.0ha	<ul style="list-style-type: none"> Protection of the hut and yards and any park visitors who may be at this remote location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around structures. Removal of bark and leaf litter from facility roofs. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the camping area. Remove excess ground fuels from around lookout decks. Install fire ban signs to be used in times of high fire danger.
Colwell's Hut Zone Area - 0.3ha	<ul style="list-style-type: none"> Protection of the hut and yards. Protection of the facilities at Colwell's visitor area and any park visitors and vehicles who may be at this remote location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around structures. Removal of bark and leaf litter from facility roofs. Ensure a fuel free zone exists around constructed fire areas. Install fire ban signs to be used in times of high fire danger. Maintenance of the vehicle trails through the area.
Cedar Creek Hut & Yards Zone Area - 1.0ha	<ul style="list-style-type: none"> Protection of the complex involving outbuildings and yards. Protection of the facilities at Cedar Creek visitor area and any park visitors and vehicles who may be at this remote location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around structures. Removal of bark and leaf litter from facility roofs. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the area. Install fire ban signs to be used in times of high fire danger. Storage of fuel or other flammable liquids away from structures in shipping container.
Dangars Falls Zone Area - 0.3ha	<ul style="list-style-type: none"> Protection of visitor precinct, infrastructure and any park visitors who may be at this well-used location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around structures. Removal of bark and leaf litter from facility roofs. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the camping area. Remove excess ground fuels from around lookout decks. Install fire ban signs to be used in times of high fire danger.
Deep Gully Hut Zone Area - 0.3ha	<ul style="list-style-type: none"> Protection of the hut and yards and any park visitors who may be at this well-used location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around structures. Removal of bark and leaf litter from facility roofs. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the area.
East Kunderang Zone Area - 3.0ha	<ul style="list-style-type: none"> Protection of the historic precinct including homestead, yards, remaining outbuildings, fences and ruins. Protection of the facilities at East Kunderang visitor area and any park visitors and vehicles who may be at this remote location. 	<ul style="list-style-type: none"> Maintain low fuel levels within historic precinct around structures and identified runts through raking, mowing and slashing. Removal of bark and leaf litter from roofs, porches, fences and fireplaces. Maintenance of vehicle trails and walking tracks to historic items. Ensure extremely low fuel levels (short, green grass) around homestead and that emergency sprinkler system is operational.
Front Tabletop Hut Zone Area - 0.3ha	<ul style="list-style-type: none"> Protection of visitor infrastructure and any park visitors who may be at this remote location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around hut and yards. Removal of bark and leaf litter from facility roof. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the area.
Gun - Blue Hill & The Hill Zone Area - 0.3ha	<ul style="list-style-type: none"> Protection of the visitor precinct, infrastructure and any visitors who may be at this well-used location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around structures. Removal of bark and leaf litter from facility roofs. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the camping area. Remove excess ground fuels from around lookout decks. Install fire ban signs to be used in times of high fire danger.
Green Gully Hut & Yards Zone Area - 0.3ha	<ul style="list-style-type: none"> Protection of the hut and yards. Protection of the facilities at Green Gully visitor area and any park visitors who may be at this remote location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around structures. Removal of bark and leaf litter from facility roofs. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the camping area. Install fire ban signs to be used in times of high fire danger.
Hulk Peak Zone Area - 5.0ha	<ul style="list-style-type: none"> Protection of visitor infrastructure and any park visitors who may be at this remote location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around structures. Removal of bark and leaf litter from facility roofs. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the camping area. Install fire ban signs to be used in times of high fire danger.
Lark Hand Hut Zone Area - 1.0ha	<ul style="list-style-type: none"> Protection of visitor infrastructure and any park visitors who may be at this remote location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around hut and yard rails. Removal of bark and leaf litter from facility roof. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the area.
Long Point Zone Area - 0.3ha	<ul style="list-style-type: none"> Protection of visitor infrastructure and any park visitors who may be at this remote location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around structures. Removal of bark and leaf litter from facility roofs. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the camping area. Remove excess ground fuels from around lookout decks. Install fire ban signs to be used in times of high fire danger.
Mary View Zone Area - 0.3ha	<ul style="list-style-type: none"> Protection of visitor infrastructure and any park visitors who may be at this remote location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around structures. Removal of bark and leaf litter from facility roofs. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the camping area. Remove excess ground fuels from around lookout decks. Install fire ban signs to be used in times of high fire danger.
Middle Yard Hut (Doubledeck) Zone Area - 0.3ha	<ul style="list-style-type: none"> Protection of the hut, yard/rails any park visitors who may be at this remote location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around hut and yard rails. Removal of bark and leaf litter from facility roof. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the area.
Riverbank Zone Area - 2.0ha	<ul style="list-style-type: none"> Protection of park visitors in a remote location. Protection of Riverside Visitor Area and associated indigenous and heritage heritage items. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around structures. Removal of bark and leaf litter from facility roofs. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the camping area. Remove excess ground fuels from around lookout decks. Install fire ban signs to be used in times of high fire danger.
Salt Hut Zone Area - 0.3ha	<ul style="list-style-type: none"> Protection of historic hut and yards and any park visitors who may be at this remote location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around hut. Removal of bark and leaf litter from facility roof. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the area.
Semeynde Zone Area - 0.3ha	<ul style="list-style-type: none"> Protection of historic wooded 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around hut. Removal of bark and leaf litter from facility roof. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the area.
Table Top Hut Zone Area - 0.3ha	<ul style="list-style-type: none"> Protection of hut and visitor infrastructure 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around structures. Removal of bark and leaf litter from facility roofs. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the camping area. Remove excess ground fuels from around lookout decks. Install fire ban signs to be used in times of high fire danger.
The Falls Visitor Area Zone Area - 1.2ha	<ul style="list-style-type: none"> Protection of visitor precinct, infrastructure and any park visitors who may be at this well-used location. 	<ul style="list-style-type: none"> Manual removal of fuel such as slashing and mowing around key assets such as toilet, interpretation shelter, wooden ramps and signs. Limited amount of prescribed burning when necessary. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the area. Day Use Area - clear any debris or high fuels from the toilet structure and immediate area. Orange fire walk - remove excess ground fuels from under wooden lookout decks. Olely Walk - remove excess ground fuels from under wooden lookout decks.
Wellwood Zone Area - 1.0ha	<ul style="list-style-type: none"> Protection of visitor precinct, infrastructure and any park visitors who may be at this well-used location. 	<ul style="list-style-type: none"> Manual removal of fuel by raking, mowing and slashing around structures. Removal of bark and leaf litter from facility roofs. Ensure a fuel free zone exists around constructed fire areas. Maintenance of the vehicle trails through the camping area. Remove excess ground fuels from around lookout decks. Install fire ban signs to be used in times of high fire danger.
Yardlands River Hut & Yards Zone Area - 0.3ha	<ul style="list-style-type: none"> Protection of historic hut and yards and any park visitors who may be at this remote location. 	<ul style="list-style-type: none"> Manual removal of fuel such as raking, slashing and mowing around key assets. Limited amount of prescribed burning when necessary. Removal of fuel from under hut and on top of roof and other structural components. Maintenance of access trail.
Yardlands Hut Zone Area - 1.0ha	<ul style="list-style-type: none"> Protection of historic hut and associated materials Protection of visitor facilities and any park visitors who may be at this remote location. 	<ul style="list-style-type: none"> Manual removal of fuel such as slashing and mowing around key assets. Removal of organic debris such as leaves from roof and other structural components. Ensure a fuel free zone exists around constructed fire areas. Maintenance of vehicle trails through the camping area. Install fire ban signs to be used in times of high fire danger. Education of visitors concerning safe fire use via interpretation materials.

SFAZ Watch Area	Specific Objectives	Strategies
Bark Hut Zone Area - 0.3ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving south east under dry north westerly winds. Reducing the likelihood of fire spreading into large areas of Olely Wild Rivers NP. Reduce fuel loads adjacent to a significant local heritage site. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Tabletop Trail, Tabletop management Trail and Tabletop Link Trail to their nominated fire standard.
Black Springs Zone Area - 1020.8ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving east under dry north westerly winds from Olely Wild Rivers National Park into private property to the south and east. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintenance of Kings Gully Boundary Trail, Black Springs Trail and Terraces Trail to their nominated fire standard.
Bottom Gully Zone Area - 803.3ha	<ul style="list-style-type: none"> Provides a strategic fuel reduced zone running north/south along Long Point Ridge moderating wildfire and strengthening Long Point Trail as a control line. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintenance of Long Point Trail to its nominated fire standard.
Bucks Camp Zone Area - 1122.1ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires spreading into and between large areas of Olely Wild Rivers NP. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Kunderang Trail, Kunderang Brook Trail and Doullie Trail to their nominated fire standard.
Brandy Creek Zone Area - 554.2ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving east under dry north westerly winds from Olely Wild Rivers National Park into private property to the east. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintenance of Yarnswich Trail and Kings Gully Boundary Trail to their nominated fire standard.
Bugbroon Creek Zone Area - 789.3ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires spreading into and between large areas of Olely Wild Rivers NP. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Kunderang Trail, Kunderang Brook Trail and Doullie Trail to their nominated fire standard.
Cedar Creek Zone Area - 40.7ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving south east under dry north westerly winds from Olely Wild Rivers National Park into visitor precinct and other structures at Cedar Creek and private property to the south. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintenance of Cedar Creek Boundary Trail and Racecourse Trail to their nominated fire standard.
Cheyenne Zone Area - 38.0ha	<ul style="list-style-type: none"> Provides protection to private infrastructure close to park boundary. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintenance of Hake Creek Trail and Burg Spur to their nominated fire standard.
Cochrane Zone Area - 238.3ha	<ul style="list-style-type: none"> Moderate fire behaviour to limit the movement of fire between Carral NP and private property. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintain Warwick Rd and Cochrane Rd to their nominated fire standard.
Daley Creek Zone Area - 370.3ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires spreading into and between large areas of Olely Wild Rivers NP. 	<ul style="list-style-type: none"> Work with and encourage landholder to undertake hazard reduction burning to maintain fuel loads at required levels. Maintain O'Neils Trail, Kunderang Trail, Apply River Trail and Front Tableland Trail to their nominated fire standard.
Doullie East Zone Area - 1584.0ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires spreading eastward between large areas of Olely Wild Rivers NP. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Kunderang Brook Trail and the Doullie Trail to their nominated fire standard.
Eastern Boundary GCMR Zone Area - 370.3ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires spreading from Olely Wild Rivers NP and Georges Creek NP onto private property. This SFAZ is part of a network of SFAZs that strengthens Eastern Boundary Trail as a control line. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Eastern Boundary Trail to its nominated fire standard.
Eastern Boundary North GCMR Zone Area - 367.0ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires spreading from Olely Wild Rivers NP and Georges Creek NP onto private property. This SFAZ is part of a network of SFAZs that strengthens Eastern Boundary Trail as a control line. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Eastern Boundary Trail to its nominated fire standard.
Eastern Boundary O'Neils Zone Area - 197.0ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires spreading from Olely Wild Rivers NP and Georges Creek NP onto private property. This SFAZ is part of a network of SFAZs that strengthens Eastern Boundary Trail as a control line. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Eastern Boundary Trail to its nominated fire standard.
East Kunderang Zone Area - 16.7ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires spreading into and between large areas of Olely Wild Rivers NP. Manage the SFAZ to improve the effectiveness of east Kunderang APZ. 	<ul style="list-style-type: none"> Maintain fuel loads at high of low. Maintain East Kunderang Road and associated trails.
Falls Paddock Zone Area - 713.7ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving south east under dry north westerly winds from Olely Wild Rivers National Park into private property to the south. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintenance of Deep Gully Boundary Trail to its nominated fire standard.
Fitzroy North Zone Area - 402.0ha	<ul style="list-style-type: none"> From the final link of a network of SFAZs that direct O'Neils NP west to the SFAZ protects both private property on the Fitzroy Plateau and areas of Olely Wild Rivers NP and the Castles NW from wildfire moving SE under HVV NW winds. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintenance of Fitzroy Boundary Trail, Carral Road and the Doullie Trail to their nominated fire standard.
Fitzroy Trail Zone Area - 631.5ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving south within the national Park. This SFAZ works with Small Creek SFAZ, rainforest, rivers and fire trails to limit the size of large fire events within the national park. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintenance of Fitzroy Boundary Trail and the Kunderang Brook Trail to their nominated fire standard.
Flaggy Rock Zone Area - 267.0ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires spreading from Olely Wild Rivers NP and Georges Creek NP onto private property. This SFAZ is part of a network of SFAZs that strengthens the Macleay River as a control line. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Hayden Trail to its nominated fire standard.
Garrbald Zone Area - 521.7ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving south east under dry north westerly winds from Olely Wild Rivers NP into private property to the south east. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintenance of Falls Paddock Trail to its nominated fire standard.
Glenmore North Zone Area - 48.0ha	<ul style="list-style-type: none"> Strategic zone of fuel management through a narrow section of National Park adjoining private property. This zone improves the likelihood of being able to control wildfire from Long Point Road. Adjoining Glenmore South SFAZ through cleared private land this forms an extensive fire advantage zone. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Work with council to encourage the maintenance of Longpoint Road.
Glenmore South Zone Area - 136.0ha	<ul style="list-style-type: none"> This SFAZ along with Mills Creek SFAZ and private property provides a strategic band of reduced fuel through a narrow section of National Park into clear paddocks on private property. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Work with private landholder to secure band of fuel reduced forest adjoining SFAZ on NP estate.
Green Range Zone Area - 215.0ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving south east under dry north westerly winds. Reducing the likelihood of fire spreading into large areas of Olely Wild Rivers NP. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Tabletop Trail, Tabletop management Trail, Tabletop Link Trail, Pappy Hill Trail, Holders Management Trail and Green Range Trail to their nominated fire standard.
Khan Trail Zone Area - 645.3ha	<ul style="list-style-type: none"> This SFAZ forms part of a network of SFAZs to moderate the movement of wildfire moving east under westerly fire conditions. This SFAZ provides protection to private property from NP but relies on a cooperative burn. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Raspberry Road and West Kunderang Road to their nominated fire standard.
Lone Pine Zone Area - 221.2ha	<ul style="list-style-type: none"> Strengthens Lone Pine Trail as a very strategic containment line for large scale fire moving around Paradise Trig Trail down onto the Apply. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Lone Pine Trail to its nominated fire standard.
Long Point Ridge Zone Area - 218.3ha	<ul style="list-style-type: none"> Provides a strategic fuel reduced zone running north/south along Long Point Ridge moderating wildfire and strengthening Long Point Trail as a control line. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintenance of Long Point Trail to its nominated fire standard.
Long Point Ridge North Zone Area - 115.0ha	<ul style="list-style-type: none"> Provides a strategic fuel reduced zone running north/south along Long Point Ridge moderating wildfire and strengthening Long Point Trail as a control line. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintenance of Long Point Trail to its nominated fire standard.
Long Point Road Zone Area - 87.3ha	<ul style="list-style-type: none"> Strategic zone of fuel management through a narrow section of National Park adjoining private property. This zone improves the likelihood of being able to control wildfire from Long Point Road. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Work with council to encourage the maintenance of Long Point Road.
Maggie Zone Area - 617.0ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires spreading into and between large areas of Olely Wild Rivers NP. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Kunderang Brook Trail, Ring-O-Roads Trail and the Doullie Trail to their nominated fire standard.
McCarthy Zone Area - 523.0ha	<ul style="list-style-type: none"> Provides the link onto the Green Gully Trail to provide a fuel reduced zone protecting numerous historic stone structures, huts and visitor infrastructure against wildfire moving from the north west. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Apply River Trail, Green Gully Trail, Kunderang Trail and Doullie Trail to their nominated fire standard.
McCarthy Zone Area - 1765.7ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires spreading into and between large areas of Olely Wild Rivers NP. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Kunderang Trail, Kunderang Brook Trail, Ring-O-Roads Trail and the Doullie Trail to their nominated fire standard.
Mills Creek Zone Area - 393.0ha	<ul style="list-style-type: none"> This SFAZ along with Glenmore South SFAZ and private property provides a strategic band of reduced fuel through a narrow section of National Park into clear paddocks on private property. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Work with private landholder to secure band of fuel reduced forest adjoining SFAZ on NP estate.
Middle Yards Zone Area - 151.7ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires spreading south with the NP. Assist in protecting assets at Middle Yard Hut and Sundarlands. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels.
Owens Creek Zone Area - 326.0ha	<ul style="list-style-type: none"> Provides a strategic fuel reduced zone within the narrow sections of national park helping control fire from east of the Newpage Gorge and Dangars valleys. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintenance of Saboury South Boundary Access Trail and Spring Camp Road to its nominated fire standard.
Paradise Creek Zone Area - 1004.0ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to limit the east west movement of the between National Park and private property. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels.
Pikes Zone Area - 137.0ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving south east under dry north westerly winds. Reducing the likelihood of fire spreading from Olely Wild Rivers NP into Wentwimbe NP. 	<ul style="list-style-type: none"> Work with landholder to undertake hazard reduction burning to maintain fuel loads at required levels. Encourage and work with landholder to maintain Bare Camp Trail and other boundary and internal trails.
Port Macquarie Cr Zone Area - 222.0ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving south east under dry north westerly winds. Reducing the likelihood of fire spreading into large areas of Olely Wild Rivers NP. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Tabletop Trail, Tabletop management Trail and Tabletop Link Trail to their nominated fire standard.
Racecourse Zone Area - 400.0ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires along the strategic Racecourse Trail. Reducing the likelihood of fire spreading from Olely Wild Rivers NP into Wentwimbe NP. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintenance of Racecourse Trail and Youdells West Trail to their nominated fire standard.
Raspberry Road Zone Area - 1006.8ha	<ul style="list-style-type: none"> This SFAZ forms part of a network of SFAZs to moderate the movement of wildfire moving east under westerly fire conditions. This SFAZ provides protection to private property from NP but relies on a cooperative burn. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Raspberry Road and encourage Armidale Regional Council and private landholder to maintain West Kunderang Road to their nominated fire standard.
Rathbone Zone Area - 397.2ha	<ul style="list-style-type: none"> This SFAZ along with Yards Creek SFAZ provides a strategic band of reduced fuel through a narrow section of National Park. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels.
Rick Creek Zone Area - 177.0ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving south into private property. Reducing the likelihood of fire spreading from Olely Wild Rivers NP into Wentwimbe NP. 	<ul style="list-style-type: none"> Work with landholder to undertake hazard reduction burning to maintain fuel loads at required levels. Encourage and work with landholder to maintain Bare Camp Trail and other boundary and internal trails.
Rowley Creek Zone Area - 606.5ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving south east under dry north westerly winds. Reducing the likelihood of fire spreading into Olely Wild Rivers NP. 	<ul style="list-style-type: none"> Work with and encourage landholder to undertake hazard reduction burning to maintain fuel loads at required levels. Maintain O'Neils Trail to its nominated fire standard.
Speer Creek Zone Area - 787.0ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires spreading into and between large areas of Olely Wild Rivers NP. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Kunderang Trail and Front Tableland Trail to their nominated fire standard.
Tabletop North Zone Area - 374.0ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving south east under dry north westerly winds. Reducing the likelihood of fire spreading into large areas of Olely Wild Rivers NP. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Tabletop Trail, Tabletop management Trail and Tabletop Link Trail to their nominated fire standard.
Tabletop South Zone Area - 194.7ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving south east under dry north westerly winds. Reducing the likelihood of fire spreading into large areas of Olely Wild Rivers NP. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Tabletop Trail, Tabletop management Trail and Tabletop Link Trail to their nominated fire standard.
Terraces Zone Area - 582.3ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving south east under dry north westerly winds into more National Park. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintenance of Terraces Trail to its nominated fire standard.
Tia Apply East Zone Area - 637.3ha	<ul style="list-style-type: none"> Provides a strategic fuel reduced zone within the narrow sections of national park helping control fire from east out of the upper Apply and Tia valleys. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Enfield North Boundary Trail to its nominated fire standard.
Ten Acre Gully Zone Area - 130.7ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fire spreading from Olely Wild Rivers NP and Georges Creek NP onto private property Carral SCA. This SFAZ is part of a network of SFAZs that strengthens the Macleay River as a control line. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Hayden Trail to its nominated fire standard.
Warwick Zone Area - 28.3ha	<ul style="list-style-type: none"> Moderate fire behaviour to limit the movement of fire between Carral NP and private property on the Carral Plateau. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels. Maintain Warwick Road and Cochrane Rd.
West Burrali Zone Area - 558.0ha	<ul style="list-style-type: none"> Moderating fire behaviour and assisting to stop fires moving south east under dry north westerly winds into more National Park and private property. This SFAZ is primarily in place to reduce the risk of wildfire impacting on national Park. 	<ul style="list-style-type: none"> Hazard reduction to maintain fuel loads at required levels.
West Kunderang Zone Area - 476.0ha	<ul style="list-style-type: none"> This SFAZ forms part of a network of SFAZs to moderate the movement of wildfire moving east under westerly fire conditions. This SFAZ provides protection to private property from NP but relies on a cooperative burn. 	<ul style="list-style-type: none"> Undertake hazard reduction burning to maintain fuel loads at required levels. Maintain Raspberry Road and encourage Armidale Regional Council and private landholder to maintain West Kunderang Road to their nominated fire standard.
Yards Creek Zone Area - 376.2ha	<ul style="list-style-type: none"> This SFAZ along with Rathbone SFAZ provides a strategic band of reduced fuel
